

P11 Plus

Portable
Colour Doppler
Ultrasound
System

*Premium solution
in Shared-Services
Ultrasound*

Premium High-end Compact ultrasound with the highest level of performance in all the applications offering both the flexibility of a portable system and ergonomics and capabilities of a cart-based unit.

Advanced clinical solutions for multi-purpose use. High level of performance and maximum compatibility for faster and safer integrated diagnosis.

The Imaging performance and features, combined with the modularity and versatility, make P11Plus the perfect choice for private practices and hospital departments requiring Cardiovascular, Abdominal, Vascular, Small Parts, Musculoskeletal, Obstetrics and Gynaecology applications.

The innovative ergonomic trolley with fully adjustable console, multi extension probe connectors, large tilting LCD screen ensure maximum user and patient comfort whilst maintaining a truly mobile unit.

Advanced technologies such as large angle scanning and temperature control for Transvaginal probes , new Trans rectal mono and biplane transducers as well specialty probes such as TEE and Intraoperative probes make the P11Plus a new standard in Shared-Service ultrasound applications.

Advanced Technologies

- Digital front-end technology
- Multi-beam technology
- Spatial compound imaging
- SRT- Speckle Reduction Technology
- Tissue Harmonic Imaging
- Invert harmonic imaging
- High Pulse Repetition Frequency
- Panoramic imaging
- 4D imaging
- Graphic diagnosis icon
- Elastography imaging

Imaging solutions for all your needs

OB/Gyn/
Baby Face

Cardiac /
TDI Valve

Abdominal /
Kidney CFM

MSK /
Medium Nerve

The wide range of Linear, Convex and Phased Array multifrequency probes allow each user to define the best solution for Cardiovascular, Abdominal, OB/GYN and POC applications

Outstanding Image quality in a new powerful lightweight architecture designed to meet all your high-performance application requirements, as volumetric 4D with superior rendering capabilities, Elastography imaging and Stress Echo function for cardiovascular exams.

High speed PC and Linux operating system, ensuring both flexibility and stability. Functional updates and system maintenance via Software keep your P11Plus up to date and ensure the highest return on your investment.
